There were three deaths caused by the flood in Augusta. The damage to the city and immediate surroundings, it is estimated, will reach half a million dollars.

The Union Station is in ten feet of water, and in the residence district in Green street the water is six feet deep and slowly rising. The Sacred Heart Church is in six feet of water. The railroads are operating few trains, and no effort is made to maintain and no effort fort is made to maintain schedules.

Many places in the State are iso-ted. More than a dozen toll and public bridges crossing the large rivers have been swept away, and at least two steel railroad bridges have gone down. Many of the dams along the rivers, erected for the protection of the fertile bottom lands, have been swept away, and the large corn crops along the different streams are a total loss. The total loss of life thus far reported is five.

It is impossible to estimate the damage to the farming interests throughout the State, but it will run into the millions. It is estimated that the damage to the cotton crop alone is ten times greater than the total loss of property resulting from the great flood of 1903 in this section.

A dispatch from Anderson says that the storm damage in Anderson County will amount to hundreds of thousands of dollars, and no train service is expected for the next ten

The floods are heaviest in Western South Carolina and Eastern Georgia. Chicago, Ill .- The mystery of the theft of \$173,000 from the United States Sub-Treasury a year and a half ago, one of the largest losses the Government has ever suffered in this manner, is believed to have been solved by the arrest of George W. Fitzgerald. Others are believed to have been implicated in the crime which for months completely bailed Fitzgerald was an assorting teller

The theft created a sensation throughout the country, and Congress at the last session was asked and refused to release Assistant Treasurer Boldenwreck from liability, although it was promised that Congress would again consider the mat-

ter at its next session. Meanwhile Herbert F. Young, a former Chicago newspaper reporter and now head of a secret service agency, became interested, at first without official connection with the case, but later as the agent of Mr. Boldenwreck. Mr. Young's attention was redirected to Fitzgerald. The case," says Judge Hand, "is that the respondent (Mr. Jerome) has been shown to have discharged that he stock certificate for \$600 in cash and a stock certificate for \$1000. latter, upon his discharge from the wife had a \$700 interest in the estate of her mother, which was valued at about \$4000 and was in litigation. Fitzgerald, however, according to Mr. Young, embarked in speculation on a sacle not consistent with the size of his reputed means.

There was no ostentation in Fitz-gerald's life. The lavish display which detectives usually look for in tracing stolen funds, was absent. Fitzgerald bought eggs for speculation and stored them. In July, 1907, he inaugurated an egg deal which ultimately, it is said, involved an ex-penditure of \$7000, and the following March a similar deal involved him, according to Mr. Young, to the extent of \$15,000. Incidentally, the former teller had become the possessor, in his wife's name, of a brick house val-ued at \$8500 in Rogers Park, a suburb of Chicago. Mr. Young declared roundabout way, passing through several hands, and finally into those of Mrs. Fitzgerald for a consideration of \$1

Under detective surveillance ever since the robbery, suspicion was directed more strongly than ever to him last month when Fitzgerald is said to have offered a \$1000 bill for \$500 to Colonel Harry C. Gano, superintendent of A. Booth & Co., a leading mercantile establishment. The money stolen from the Sub-Treasury was in thousand dollar bills. It was stolen from the cage in which Fitzgerald Fitzgerald's salary
